COMMENTS AND/OR SUGGESTIONS:

- ***** for the the raffle girl !!! :)
- **Sometimes standing room only in workshops. Had to wait on room to be ready - about 3 hours; food was good.
- 100% good; (more) coffee
- 3 cheers for raffle lady, Jolene!!! The meeting rooms were cold! Not too many events scheduled for it being a remote area.
- Always not enough time! Re-touch on WIA grant instructions. It's very important.
- Better coordination to lead the "marriage" of 166 & 477. Still not sure how exactly things are going to turnout. Hopefully more variety for workshop next time. A little more variety in activities would have been good - more cultural things. (Not everyone enjoys casinos!) Default activity was going out shopping :)
- Check in need to have more bags and Teresa needs to be nicer to the people. Was cold in rooms & sessions.
- Conference was great. Hotel staff was not so great.
- Did not stay at this hotel.
- Didn't have enough handouts; Need to have presentation on discs or jump drives please.
- Do not care for the service of this hotel - very unfriendly staff. It would've been great if it was held somewhere else.
- Enjoyed the meals, activities and the commitment of the planning committee. Workshop facilitators need to be more interactive.
- Everything was excellent.
- Everything was great. Thank you for everything. It was very helpful and understanding. I'm a new case manager so thanks again. Hope to see you all again next year!

OVERALL EVALUATIONS RESULTS

COMMENTS AND/OR SUGGESTIONS:

Excellent - 1st time here. I can't wait until next year to do it again!! Thank You! :)

Flash drives - all material

Food was good.

Food was great.

For two of the workshops I wanted to attend, the room was full. For another two workshops, the presenter ran out of handouts.

Good idea to have name pre-printed for sign-in sheets.

Good refreshments, conference staff were very helpful and friendly.

Great conference

Great Conference * Great Food everyday - Have positive outcome - Made some new friends

Great event!

Great job!

Great trainings, great people, great networking

Great workshops and meeting people

Hotel filled up. Need bigger accommodations.

Hotel was too far away from city limits.

I enjoyed the conference very much. Can't wait for the next one.

I had a reaction in one of the conference rooms #3 that I only have in the presence of mold. Many people were coughing and having allergy symptoms. There was also a very unpleasant smell.

I was disappointed to hear about a big participant/coordinator treat hotel staff very rude with no respect. Our job is to improve, encourage and stay positive. We also form partnerships. These actions did not prove this. The woman who received the quilt. I hope that hotel staff (whom is pregnant) did not get offended. Very rude and unprofessional.

It was an awesome conference. Overall excellent! :)

It was definitely a great experience.

Love the conference itself. Hated the hotel, location, food & services. The hotel smells like smoke all over, dirty, boring, rude staff. Nothing to do, nothing within walking distance. Horrible, awful place.

Majority of the speakers did an exceptional job. A few had to liven up their sessions and make it more interesting rather than reading word for word and allow for participant comments. Overall the joint conference was great.

More cultural activities

More planning around space in classrooms; paperwork; photocopies (bring our own paper, do not use hotels) Great Conference! Very family oriented.

More room in workshops

OVERALL EVALUATIONS RESULTS

COMMENTS AND/OR SUGGESTIONS:

My room was by the indoor pool. Fans blowing all night or the smell of chemicals was overwhelming (only complaint)

Name labels were great - but did not save time in class sign-ins re: phone #s & email address.

Need more updated information on veterans issues - hopefully from a veteran.

Need to have resolution training, public speaking, team building.

Need to start on time - morning sessions and evening sessions.

Next year please consider someone to take pictures of those that receive awards, recognition, and those "behind" the scenes. In other words a pictorial "history" of each conference.

No a/c in hotel room!

No shuttle at Quality Inn; Did not care for company pitches at workshops (e.g. Merrill Lynch & Career Pillars). Loved the food. The 166 template helpful.

Not enough computers for Bear Tracks and room was small.

Not enough rooms at host hotel!

Overall conference was excellent.

Peel & stick good idea.

Ran out of shirts; not enough handouts, most popular workshops too crowded and hot

Really enjoyed peer to peer training; Food & cultural events excellent; general sessions all relevant. Love peel & stick sign in!

Reconfirm the speakers if they are going to present the topics - instead of cancel at the last minute.

Registered way ahead of time. People who registered onsite got my materials. Too much last minute changes to workshops.

Rooms were too cold. Thanks for HOT breakfast each morning!!

Site not friendly to commuters, some rooms are too small - not near conveniences.

Some conference rooms (downstairs) were freezing!! Some presenters were not prepared/handouts...

Some conference rooms were small and cold.

Some presenters unprepared. Some rooms too packed. Need on-site counselors for crisis intervention.

Some rooms were small and filled up quickly - wanted to attend WIA Youth measures and Bear Tracks.

Some workshop rooms too small

Some workshops did not have enough seating; hotel too small.

Speeches still too long. I would like to hear from directors from all over - maybe talking about where they come from, pictures of neighborhoods & people.

Thank you for all the good food! No complaints.

Thank you for all the information and work.

The conference rooms varied. Not enough hotel rooms here and had to stay at other hotel.

The conferences rooms I, II, III were too small.

OVERALL EVALUATIONS RESULTS

COMMENTS AND/OR SUGGESTIONS:

The only issue was the seating, other than that it was a great conference!

The stairs

There were a few times it was cold but it got adjusted right away.

This was my first time, very good training

Too many late minute changes to rooms. Better movie night movies.

Two of sessions I planned on attending were cancelled. I wasn't able to attend all the sessions I would have liked.

Wonderful experience, great hotel staff food, etc. Workshop topics were offered with a good unity -TY! Missed one workshop because it was full.

Workshop rooms small - no room for participants to sit. I witnessed an event organizer (the woman who received blanket) be EXTREMELY rude and unprofessional to a hotel maid. Very VERY rude - it was not acceptable!

Workshop rooms too cold; I love the peel & stick idea. And the evening activities were great. Conference was great!

Workshop rooms too hot or too cold.

Workshop rooms too hot or too cold; noisy toilet in room; Thank you for this training and all the work that everyone did to make it possible. God Bless you all!

Workshops need more interaction.

Workshops rooms were cold; Out in the middle of nowhere - didn't get to see much of South Dakota.

- PowerPoints couldn't be seen - distracted and took away from the impact of presentation - good info - made me excited to do differently at center!
- Career Pillar seems like a great program. I would have liked to learn a bit more about how it is integrated into tribal workforce efforts; maybe this time segment would have better served Career Pillar on its own.
- It was rushed and then ended 20 minutes early. Felt too rushed, rather see clients feedback. Would like to have seen more videos in Career Pillar. Other than that, a good workshop and good info.
- Great information provided how to prepare for interviews.

Comments (continued):

The workshop needs to start on time and no matter how much copies cost, you need to have your handouts!! Very important!! People knew the info, just did not know how to present it. Thank goodness Duane was there.

There should have been handouts for all attendees as this information is a very important workshop. Was very confusing because presenters were with somewhat different application processes. Also they seemed a little confused and unprepared.

Was grateful for the examples given.

Was late - did not get handouts

We needed ALL this info much sooner - perhaps this could be planned in conjunction with the SGA via webinar.

Could you email me examples of submission of application. Thanks. Traci.Henslee@pokatonband-nsn.gov
