Comments:

1. Not enough material. Provided general ideas...nothing specific. Presentation had no time for discussions.
2. Cost per year might be costly, especially if you're a small grantee.
3. Can see practical application of this model if you can get stakeholders to invest.
4. Gaining knowledge to take to my First Nations which is on the border to U.S. where some of our First Nations people are employed in the U.S. by programs offered to us.
5. He is a very good presenter. It's actually something we could do in an urban program.
6. Brochure provided, but not specific material (power point), etc. I like to follow along and take notes on material for retention.
7. Lots of energy and success that can be spread throughout Indian Country.
8. Excellent presentation!
